## James Cracknell OBE

James Cracknell OBE is one of Britain's most successful athletes of all time, he has 2 Olympic Gold Medals and 6 World Championship titles. His epic rowing finals in Sydney 2000 and Athens 2004 were two of the most watched sporting contests in history, but it's since retiring from his 13 year international career that James Cracknell has distinguished himself as a very special and inspiring sportsman, athlete and adventurer.

In 2010, James Cracknell finished a phenomenal 12th in the Marathon de Sables (making him the highest placed Briton in its 25 year history). He had already entered the race 'for fun' when the Discovery Channel decided it was something that needed filming. Subsequently, he turned his attentions to a new challenge, 'James Cracknell Takes on America' – racing to cycle, run, row and swim from LA to New York in record time. It was during this trip that James suffered a near fatal accident after being struck from behind by a truck while cycling through Arizona. After a difficult six-month recovery period, James took to his bike again, to test the limits of human survival in a race that only a handful of endurance athletes in the world have ever attempted – The Yukon Arctic Ultra.

Despite James' setbacks he remains driven and dedicated whilst responding to pressure - he ensures he exceeds excellence in whatever challenges he takes on.
